Amit Saxena

UI / UX Product Designer

Objective

Hard-working professional with 11+ years of experience and 6 years a proven knowledge of application development. Aiming to leverage my skills to successfully fill the UI/UX Product Designer role at your company.

Skills

- **Web:** HTML5, XHTML, CSS3, SCSS, JavaScript, J-Query Angular8.
- **Frameworks:** Twitter Bootstrap, HTML5, Sass, RWD and Developer tools of Firefox, Chrome, IE and Safari.
- **Developer Tools:** Dream Weaver, Visual Code, Eclipse, Brackets, etc.
- **Graphics / UX :** Adobe Photoshop, Adobe illustrator, Adobe XD, Figma, Invision, Apps Design, Banner Design, flyers Design, Website Template Design.

Engagement experience

I have worked as UI / UX Product Designer for clients. I was involved in interacting with the functional owners to understand the requirement and subsequently designing and developing an efficient and optimum solution for the same. I was also involved in creating viable specification and acceptance criteria for the identified solutions. Developing the solution testing strategy and plan and participating in or managing user acceptance testing.

In other engagements in my career, I was involved in coordinating with Business for the business/functional requirements, Design & Development, developing reports. I have been a part of the team in critical situations and supported, helped and shared the work. Have mingled with the team members of all cadres. I have indulged in corrective communication and achieved desired results in the deliverables of important objects.
